

# Dufour Seminars & Training

## Upcoming Seminar Schedule and Available Programs

	<p>Winter – Spring</p>	<p><b>Hazardous &amp; Universal Waste Management*</b>: This class comprehensively covers basic hazardous waste management requirements for both newly-assigned and experienced personnel who need to be up-to-date on regulatory and legislative developments, enforcement trends and cost-saving waste management tips and service deals. The focus of this training is on California requirements for hazardous waste generators, including RCRA and non-RCRA hazardous and universal waste.</p>
<p><b>SEMINAR LOCATIONS</b></p>	<p>Spring – Summer</p>	<p><b>Environmental Crash Course*</b>: The Environmental Crash Course, conducted annually since 1988 to train and update business managers, company officials, attorneys, and others responsible for environmental compliance on California environmental laws and regulations. There is no comparable source of information to find out about changes in state laws, regulations, policies, and enforcement developments. Every important regulatory subject is covered, from air permits to Community Right-to-Know to hazardous and non-hazardous waste management, including relevant federal background, basic program requirements, state differences, and changes effective each year.</p>
<p><u>Northern California</u></p> <p>Sacramento Silicon Valley Concord</p>	<p>Fall</p>	<p><b>HazMat Compliance Training and Train-the-Trainer Program and Oil Spill Prevention Workshop*</b>: This training covers the information you need to meet current California and federal hazardous materials and hazardous waste management and training requirements. This information is presented in a format that will equip attendees to demonstrate compliance with the regulations most frequently enforced by CUPAs and Cal/OSHA. This class’ unique integration of overlapping regulatory and training requirements and train-the-trainer instruction will save you time, effort, and expense, and equip you with the tools to provide expert quality training to other employees – the training that regulators demand.</p>
<p><u>Southern California</u></p> <p>Burbank Irvine Ontario</p>	<p>Winter</p>	<p><b>Cal/OSHA Management &amp; Compliance Strategies</b>: Training and update for personnel responsible for employee safety and health. This program is designed to assist employers in complying with Cal/OSHA regulations and standards and preventing accidents. Cal/OSHA Compliance will address topics of critical importance to attendees with responsibility for managing OSHA issues; for example: AB 1127’s increased penalties, enforcement procedures and appeals, standards developments, including ATPs, ergonomics, forklifts, Log 300 injury/illness recording reporting, lockout/tagout, and injury &amp; illness prevention.</p>

**Dufour Seminars & Training also offers privately-sponsored employer or association programs based on the above topics, or a combination of them, tailored to the sponsoring organization. For more information, contact us toll free at (866) 312-8885.**

\*Seminars that can be applied to meet mandatory annual training required by certain regulations.
